Commissioner of Patents and Trademarks
Washington, District of Columbia 20231

Sir:

1. The above patent contains significant error, as indicated on the attached Certificate of Correction form (submitted in duplicate). These errors arose at the respective places in the application file indicated below.

X 2. Since such error arose through the fault of the Patent and Trademark Office, it is requested that the Certificate be issued at no cost to applicant.

☐ 3. Such error arose through the fault of applicant(s). A check for \$ _____ for the fee is enclosed. Such error is of a clerical or minor nature and occurred in good faith and therefore issuance of the Certificate of Correction is respectfully requested.

4. Specifically,

The patent fails to include an amendment to the claims introduced by the Examiner's Amendment of January 9, 1998. Under this amendment, claim 20 was deleted and a new claim 20 was inserted. On the same date, the Notice of Allowability renumbered the claims, reslotting claim 20 as claim 1. As a result, claim 1 in the patent should read in accordance with claim 20 as amended by the examiner.

While the examiner deleted the old claim 20 entirely, he nevertheless noted in brackets language which did not survive his amendment. Please note that the bracketed language imprecisely represents the language of the eliminated claim. That claim included wording inserted by an Examiner's Amendment of March 7, 1995. By contrast, the brackets contain references only to the original version of claim 20 as offered by the Response to Office Action and Amendments of December 12, 1994.

In any event, the Examiner's Amendment of January 9, 1998 contains the entirety of the allowed claim 20, now renumbered as claim 1. True and correct copies of the Response to Office Action and Amendments of December 12, 1994; the Examiner's Amendment of March 7,

1995; and the Examiner's Amendment and the Notice of Allowability of January 9, 1998 are included.

Very Respectfully,

Steven A. Swernofsky, Patent Attorney
